The two-nation theory was the basis for the partition of India in 1947. This theory supported the proposal that Muslims and non-Muslims should be two separate nations. It is the ideology that the main identity and unifying aspect of Muslims in the Indian subcontinent is their religion, rather than their language or ethnicity.. The two-nation theory was a founding principle of the Pakistan ...

In mathematics, and more specifically in graph theory, a graph is a structure amounting to a set of objects in which some pairs of the objects are in some sense "related". The objects correspond to mathematical abstractions called vertices (also called nodes or points) and each of the related pairs of vertices is called an edge (also called an arc or line).
