La figure humaine constitue le thème principal de l'art olmèque. Le catalogue d'œuvres monumentales de Beatriz de La Fuente (1973) comporte 206 pièces, dont 110 sont des représentations anthropomorphes. Les œuvres animalières ne viennent qu'en troisième position, après les figures hybrides, parmi lesquelles l'homme-jaguar prédomine.

Olmèques à Wikipédia

Outre les codex, on dispose d'une grande variété d'objets reliés aux terrains par l'iconographie. On peut citer des objets aussi variés que des maquettes de terrain en céramique du Nayarit représentant des joueurs en train de s'affronter, un graffiti de Tikal ou encore la fresque du Tlalocan à Teotihuacan. Ces objets représentent les terrains en plan ou en profil.
