

attention in action advances pdf

AIDA is an acronym that stands for Attention, Interest, Desire and Action. The AIDA model is widely used in marketing and advertising to describe the steps or stages that occur from the time when a consumer first becomes aware of a product or brand through to when the consumer trials a product or makes a purchase decision. Given that many consumers become aware of brands via advertising or ...

AIDA (marketing) - Wikipedia

attention memory The RNN gives an attention distribution which describe how we spread out the amount we care about different memory positions. The read result is a weighted sum. Similarly, we write everywhere at once to different extents. Again, an attention distribution describes how much we write at every location.

Advances in Developing Human Resources

The emerging trends in the combinatorial chemistry and drug design have led to the development of drug candidates with greater lipophilicity, high molecular weight and poor water solubility.

Insoluble drug delivery strategies: review of recent

Drug design, often referred to as rational drug design or simply rational design, is the inventive process of finding new medications based on the knowledge of a biological target. The drug is most commonly an organic small molecule that activates or inhibits the function of a biomolecule such as a protein, which in turn results in a therapeutic benefit to the patient.
