descriptions presented here will prove useful to other CG-5 owners. Home Page What Is a CG-5? The CG-5 is a popular medium-duty equatorial telescope mount available from several

Improving the CG-5 Equatorial Mount - Astronomy Boy

Maya astronomy is the study of the Moon, planets, Milky Way, Sun, and other astronomical occurrences by the Precolumbian Maya Civilization of Mesoamerica. The Classic Maya in particular developed some of the most accurate pre-telescope astronomy in the world, aided by their fully developed writing system and their positional numeral system, both of which are fully indigenous to Mesoamerica.

Maya astronomy - Wikipedia

The Great Debate, also called the Shapley-Curtis Debate, was held on 26 April 1920 at the Smithsonian Museum of Natural History, between the astronomers Harlow Shapley and Heber Curtis. It concerned the nature of so-called spiral nebulae and the size of the universe; Shapley believed that distant nebulae were relatively small and lay within the outskirts of Earth's home galaxy, while Curtis ...

Department of Physics & Astronomy

The Astronomy Net was founded in February 2001 by Mark - KB9WLX, and is open to all licensed Amateur Radio Operators (Hams). 3rd party traffic is permitted, providing it's done as per FCC rules. If you have children in the shack, we'd love to hear from them as well! All Ham Radio Operators are welcome to check in and participate in the net, you DO NOT have to be an astronomer to participate.

South West Astronomy Observers Group

This service shows a world map with the current position of the Moon and indicates which parts of the Earth can currently be seen from the Moon.

Moon Light World Map - timeanddate.com

Become familiar with the cutting edge of astronomy research, from the Solar System and exoplanets to galaxies and the distant universe. Learn how astronomers are addressing profound issues such as the existence of life beyond Earth and black holes and the nature of dark matter and dark energy. Clear ...
