The NBER Public Economics Program. studies the effects of taxation and government expenditure programs at the federal, state, and local levels. One ongoing activity of this program is the development of the NBER TAXSIM model, a computer simulation model that uses annual data on 100,000 individual taxpayers to project the effects of alternative tax rules.

The unemployment rate ended 2018 at just under 4%, substantially lower than most estimates of the natural rate. Could such an ostensibly tight labor market lead to a sharp pickup in wage growth from its recent moderate pace, such that the relationship between wage growth and unemployment is not always linear?
