Behavioural medicine in cardiovascular disorders (Book

Cardiac Behavioral Medicine. Research shows that the mind and body are strongly linked. Patients with cardiovascular disease often experience increased stress and changes in emotional functioning throughout the course of diagnosis and treatment. In fact, two out of every five cardiac patients experience symptoms of clinical depression.

Cardiac Behavioral Medicine | Northwestern Medicine

The majority of risk factors for heart disease can be reduced, including lifestyle choices like smoking, diet and exercise. The Northwestern Medicine Cardiac Behavioral Medicine team works with patients to make sure they have the best information on changing lifestyle behaviors--and help each patient meet their goals for changing them.
