In this excerpt from Foundations for Multilingualism in Education: from Principles to Practice (Caslon, 2011), Ester de Jong shares an overview of the history of language policy in the United States. "Return to Bilingual Education" explores the 20th-century language policies that emerged after World War II, early bilingual education programs, and the Bilingual Education Act of 1968.

The critical period hypothesis is the subject of a long-standing debate in linguistics and language acquisition over the extent to which the ability to acquire language is biologically linked to age. The hypothesis claims that there is an ideal time window to acquire language in a linguistically rich environment, after which further language acquisition becomes much more difficult and effortful.
